# *Light in Gaza*

Jennifer Bing, one of the editors of *Light in Gaza, Writings Born of Fire*, will introduce this collection of Palestinian writers exploring Gaza's future.

***Light in Gaza* (Haymarket Books) is a moving and wide-ranging anthology of Palestinian writers and artists. It is a collective effort to organize and centre Palestinian voices in the ongoing struggle. As political discourse shifts toward futurism as a means of reimagining a better way of living, beyond the violence and limitations of colonialism, *Light in Gaza* is an urgent and powerful intervention into an important political moment.**
